PROFESSIONAL SUMMARY

Startup-hardened Software Developer with a relentless ship mentality, a passion for continuous learning, and a bias for rapid iteration. Leverages AI to rapidly master new technologies and deliver production-ready software in fast-paced environments.

WORK EXPERIENCE

Software Developer — 8MB LLC (Zagged) | New York, USA | Remote **June 2025 – Present**

- Developed and scaled automation bots across **70+ Discord servers (40,000+ members)** for **7-9 figures** U.S. brands, automating onboarding, moderation, payment submissions, and creator workflows.
- Built and operated an internal outreach email automation platform with TikTok and Reddit scraping, Google SMTP, and anti-bot measures to maximize inbox deliverability, scaling outreach to **60,000+ emails/month**, helping onboard **1,500+ UGC creators**, and reducing SaaS costs
- Optimized and scaled a full-stack CRUD content library platform serving **5,000+ monthly visits**, implementing CDN caching, WebP compression, lazy loading, and asset prefetching to achieve **1.27s page load times** while reducing cloud egress costs.
- Developed an internal media generation platform integrating Gemini and ChatGPT APIs with Discord bots, reducing SaaS costs by **50%** through optimized API request batching.
- Built a concurrent video downloader processing **100K+ TikTok/YouTube URLs** per month across **30 async workers** with persistent pause/resume job tracking, automated anti-rate-limit backoff and auto-organized file output, achieving **~30x faster** bulk downloads for client delivery.

Full Stack Developer — TaxFirmSystems | Florida, USA | Remote **January 2026 – Present**

- Built a full-stack B2B SaaS lead generation platform using Next.js 16, TypeScript, React 19, and MongoDB with API routes enabling lead acquisition for **70+ tax relief firms**.
- Engineered an automated sales pipeline integrating Stripe (with idempotent processing), Calendly, Discord webhook, QStash, and an 8-template drip email sequence, **reducing manual follow-up to 0%**.
- Implemented server-side Meta Conversions API with event deduplication to maximize lead quality, powering an ad funnel that generated **200+ tax relief firms leads** nationwide.
