WORK EXPERIENCE

Software Developer (Full-time) — 8MB LLC (Zagged) | Remote (New York, USA) June 2025 – Present

- Developed and scaled automation bots across **60+ Discord servers (40,000+ members)** for U.S. brands, automating onboarding, moderation, payment submissions, and creator workflows.
- Engineered an internal outreach automation platform with TikTok/Reddit scraping, scaling to **60,000+ emails/month** and onboarding **1,500+ UGC creators** while reducing SaaS costs
- Developed an internal media generation platform integrating Gemini, OpenAI to Discord bots, reducing SaaS costs by **50%** through Batch API workflows and automation.
- Optimized and scaled a full-stack CRUD content library platform serving **3,000+ monthly visits**, implementing CDN caching, WebP compression, lazy loading, and asset prefetching to achieve **1.27s page load times** while reducing cloud egress costs.
- Designed a scraping-based analytics platform for brand managers, automating creator post tracking across social media and processing **100,000+ posts/month**.
- Built an internal video downloader processing **100K+ URLs** with **30 concurrent async workers**, achieving **~30x faster** bulk downloads through parallelized I/O and automated rate-limit handling.

Web Developer (Part-time) — TaxFirmSystems | Remote (Florida, USA) January 2026 – Present

- Strengthened dashboard security and data quality through role-based permissions, password recovery, email verification, and sanitized webhook ingestion.
- Improved client onboarding funnels by developing trial signup and verification systems, converting **5,000+ website visits** into **100+ qualified leads** tracked through a custom CRM.

SIDE PROJECTS

Web Vulnerability Scanner and PoC Reporter

- Web vulnerability scanner automating **17 OWASP-aligned security checks** (XSS, SQLi, CORS, path traversal, IDOR, etc.) with automatic raw HTTP evidence capture, **CVSS 3.1 severity scoring**, and exportable PoC reports in **5 formats** including SARIF for CI/CD pipelines

TECHNICAL SKILLS

- **Programming Languages:** JavaScript, TypeScript, Python, SQL
- **Frontend:** React, Next.js, Tailwind CSS
- **Backend & APIs:** Node.js, Express.js, Flask, REST APIs, FastAPI
- **Databases & Storage:** PostgreSQL, MongoDB, SQLite, Supabase, Cloudinary
- **Infrastructure & Deployment:** Railway, Render, Vercel, Docker, Cloudflare, CI/CD, Cron Jobs
- **AI & Developer Tools:** Cursor, Antigravity, GitHub Copilot, Codex

EDUCATION

Bachelor of Science in Information Technology – New Era University

June 2026

ADDITIONAL INFORMATION

Civil Service Eligibility – Professional Level (CSE-PPT)

August 2025
